

Dr. Olusola Oresanya is a Public Health Specialist with an International Masters in Public Health and a strong base in epidemiology. She has over 20 years post-qualification experience as a medical doctor in program design, policy formulation, planning, implementation, surveillance, monitoring and evaluation of malaria control strategies.

In her current role as Senior Country Technical Coordinator in Malaria Consortium (MC), she provides technical oversight for all our projects and programmes within the Nigerian portfolio of Malaria Consortium with multiple funding streams including the Global Fund, BMGF, Open Philanthropy, among others. She mentors, builds capacity and inspires the technical team in the organization. She has extensive experience in the planning, coordination and implementation of large-scale surveys, including Malaria Indicator Surveys, implementation research and other monitoring and impact evaluation surveys having served as Principal Investigator and Co-Principal Investigator for a number of them.

Dr. Oresanya is affiliated to the London School of Hygiene and Tropical Medicine as a PhD research student with interest in implementation research and has also served as a member of the Monitoring and Evaluation Reference Group of RBM. She is a PEARS Scholar Awardee with a number of publications to her credit in peer-reviewed journals and also a peer reviewer with Malaria Journal and British Journal of Medicine and Medical Research and BioMed Central. Her other interests include youth development, leadership and mentoring and is affiliated to the Chen Teen and Youth Development Initiative. She is married to a fabulous guy with three lovely children. :)
